

NORDLUND
CUSTOM BOAT BUILDERS

The boat
you've wanted.

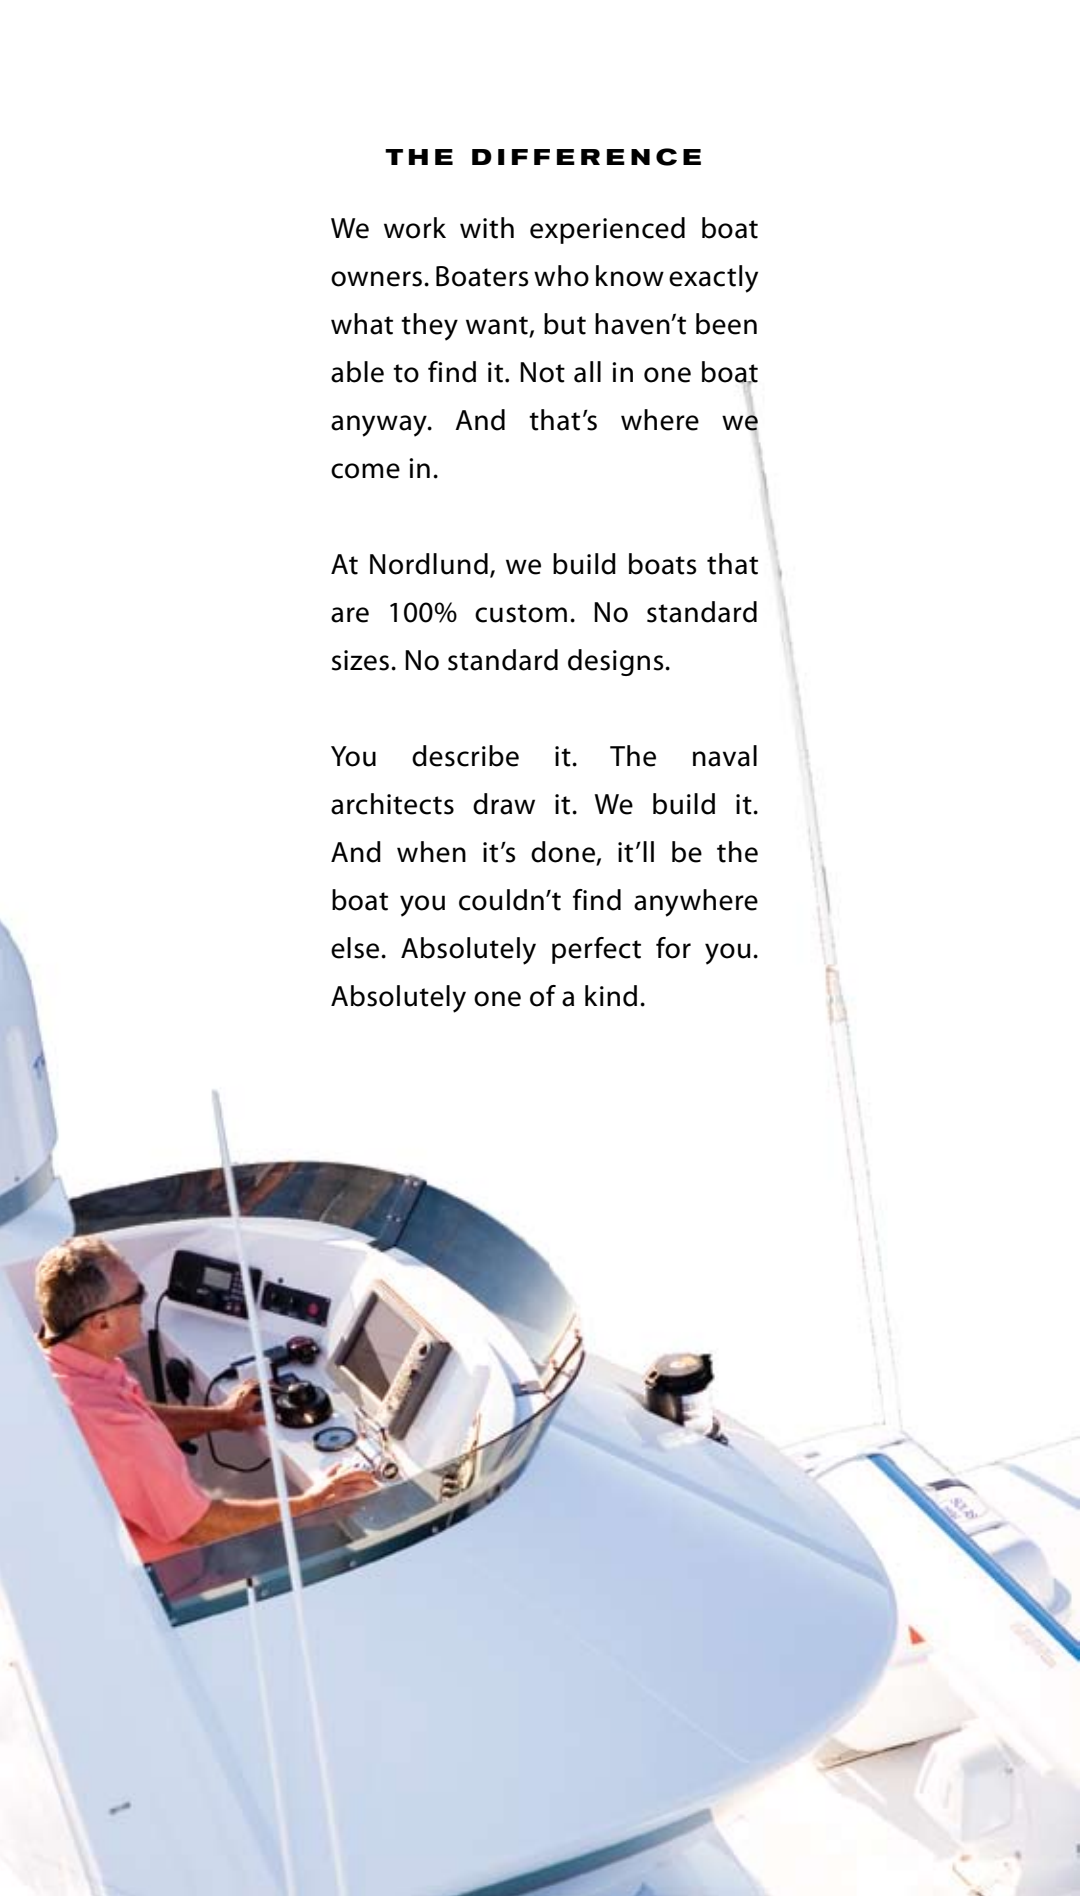

Is exactly the boat
we'll build.

THE DIFFERENCE

We work with experienced boat owners. Boaters who know exactly what they want, but haven't been able to find it. Not all in one boat anyway. And that's where we come in.

At Nordlund, we build boats that are 100% custom. No standard sizes. No standard designs.

You describe it. The naval architects draw it. We build it. And when it's done, it'll be the boat you couldn't find anywhere else. Absolutely perfect for you. Absolutely one of a kind.

TEAM NORDLUND

Family run boat yards are rare today. Rarer still are those that have been around for 50 years. Our team includes craftsmen who have been with us longer than some boatyards have existed. They are the heart of our company, and a part of the Nordlund family.

Building a big boat is a collaborative effort, and our boat owners also become part of the Nordlund team. Many of the owners we work with are on their second or third Nordlund boat. We've even built boats for a new generation of owners who grew up cruising on their parents' Nordlunds.

Our boat owners and our craftsmen share a common bond. Both appreciate the advanced technology and high quality that we bring to our boats. And both appreciate working among dedicated people who enjoy what they do. Boat building can be a lot of fun when a savvy owner challenges us to do something no one's done before. And since every boat we build is one of a kind, that happens a lot at Nordlund.

OUR BOATS

Every boat we build is perfect for its owner. But no two are the same.

Length. Beam. Power. Speed. Features. They're different every time.

So if you don't see one here that you like - well that's the point isn't it? We really wouldn't expect your ideal boat to be here. Because the exact boat you've wanted doesn't exist. Yet.

When you're ready for the boat that you couldn't find anywhere else, we're ready to build it for you.
